10th Grade	H S BAISA, Khagaria	70%	2016 - 17

Skills

- Php Laravel(APIs)
- Core Php
- MySql and PgSql
- HTML, CSS, JavaScript, Bootstrap
- WORDPRESS

Projects

- News Website**
Building a Laravel News website requires a full understanding of the News ecosystem and also the right data workflows.

With that, there is the use of the framework that should be easy to code and should have wide community support also should be scalable.

Thus of all the PHP Frameworks, Laravel is, of course, the most suited PHP Frameworks that should be used for creating an News Website.

- **SmartCare**
SmartCare is developed to digitalize and simplify the task of integrating everything related to Healthcare, including medical, clinical & pharmaceutical procurement and maintenance of records.
- **New Architecture website**
It's developed by WordPress with use Elementary Plugin
- **ecommerce website**
It's developed by WordPress with use Elementary Plugin
